ABOUT ME

IT-focused software engineer experienced in backend systems, API design, process automation, cloud infrastructure, and hospitality operations. Strong at translating manual workflows into reliable systems that improve service quality and cross-team coordination.

EXPERIENCE

Software Engineer

UTN - FRRe

Argentina

March 2024 - Dec 2024

- Designed and implemented a scalable server architecture and automated workflows to support hundreds of users
- Collaborated with the financial department to streamline operational processes, resulting in a 10% reduction in costs and a 50% increase in efficiency
- Reverse engineered manual business processes and translated operational constraints into maintainable software workflows

Backend Engineer

Devlights S.R.L

Argentina

March 2021 - Sep 2021

- Implemented a REST-API to automate data collection of the customer
- Gained hands-on experience with Python, Git, Django, Web APIs and applied them to a web application

Server | Private Dining

St. Regis - Marriott

Aspen

2025-2026

- Supported luxury hospitality operations at a Marriott property, coordinating across kitchen, bar, private dining, and overnight service teams in a high-expectation guest environment.
- Used firsthand operational context to identify process gaps, handoff needs, and service reliability requirements that IT systems must support in hotel environments.

SKILLS

Languages: Python, Java, JavaScript, TypeScript, Rust

Cloud: GCP, AWS

Databases: MySQL, MongoDB, SQLite

DevOps & Infra: Docker, CI/CD, GitHub Actions, Git, Linux

Frameworks: Django+DRF, Angular, Spring, FastAPI

IT Operations: Process automation, Workflow mapping, DBA fundamentals, CI/CD pipelines, Data processing, Data lakehouse

EDUCATION

Universidad Tecnologica Nacional, Argentina

2015 - 2024

Information System's Engineering

CERTIFICATIONS

2025: Databricks Data Engineer Associate

2025: SQL Advanced

2025: MongoDB - Database Administration

2025: Oracle Next Education Program

2024: Google Associate Cloud Engineer
