Software Engineer

ABOUT ME

Software Developer/Engineer with a passion for solving complex problems through elegant code. Experienced in backend development, API design, process automation, and data engineering.

EXPERIENCE

Software Engineer *Argentina*

UTN - FRRe *March 2024 - Dec 2024*

- Worked in a team of 6+ people building an ED Platform that helped automate tasks, optimize processes, and maximize productivity
- Mapped manual processes with non-technical stakeholders, documented constraints, and helped reduce costs 10% while increasing efficiency 50%.
- Designed and implemented a scalable server architecture and automated workflows to support hundreds of users
- Collaborated with the financial department to streamline operational processes, resulting in a 10% reduction in costs and a 50% increase in efficiency

Backend Engineer *Argentina*

Devlights S.R.L *March 2021 - Sep 2021*

- Collaborated with a team of 4+ interns and mentors to develop a website for an ISP company
- Implemented a REST-API to automate data collection of the customer
- Gained hands-on experience with Python, Git, Django, Web APIs and applied them to a web application
