ABOUT ME

Full-stack engineer comfortable across the entire web stack — from REST APIs and databases to JavaScript frontends. Experienced building and shipping end-to-end web applications.

EXPERIENCE

Software Engineer

Argentina

UTN - FRRé

March 2024 - Dec 2024

- Worked in a team of 6+ people building an ED Platform that helped automate tasks, optimize processes, and maximize productivity
- Designed and implemented a scalable server architecture and automated workflows to support hundreds of users
- Collaborated with the financial department to streamline operational processes, resulting in a 10% reduction in costs and a 50% increase in efficiency

Backend Engineer

Argentina

Devlights S.R.L

March 2021 - Sep 2021

- Collaborated with a team of 4+ interns and mentors to develop a website for an ISP company
- Implemented a REST-API to automate data collection of the customer
- Gained hands-on experience with Python, Git, Django, Web APIs and applied them to a web application
